THE GAME:

This is a game for 2 to 4 players.

Each player takes the role of the Deaf CD Thief, and the aim of the game is to avoid capture and steal the stack of CDs from the Podcasters.

GAME PLAY:

Shuffle the cards and then deal all of the pack among the players.

Each player should then discard any pairs that they hold (i.e. Red Key and Blue Key). The game can then start.

The first player holds up their cards in a fan facing them so that only they can see them.

The player to their left should take one of their cards and add it to their own.

If a pair is made then the both cards should be discarded.

Play continues in this fashion until all of the pairs have been discarded and one player is left holding the card with the stack of CDs.

This player is the winner!!
